NOTE.—Documents for sale by this office are indicated by a star (*) preceding the price named. Words and figures inclosed in brackets [] are given for information, but do not appear on the title-pages of the publications catalogued. When size is not given, octavo is to be understood. The dates, including day, month, and year, given with Senate and House documents and reports are the dates on which they were ordered to be printed. Usually the printing promptly follows the ordering, but various causes sometimes make delays. When Congress and session are not given with the numbers of Senate and House documents and reports, 56th Congress, 1st session, is to be understood.

General Information

With Reference to the Distribution of Documents

CATALOGUE DISTRIBUTION

Hereafter the monthly catalogue published by this office will be sent to Congress, heads of Departments, bureaus, institutions, school, public, and college libraries only.

This announcement is made necessary because of the impossibility of supplying the catalogue regularly to any considerable number of persons, on account of the small edition which Congress has authorized to be printed.

NO FREE DISTRIBUTION TO INDIVIDUALS

The Superintendent of Documents is not authorized to supply documents free to individuals, except publications specifically authorized by Congress to be distributed by him to persons designated by Senators, Representatives, or Delegates.

DISTRIBUTION TO LIBRARIES

The Superintendent of Documents will receive documents from libraries that have them in duplicate, and will redistribute the same to other libraries to complete broken sets therein, or to libraries that have no Government publications.

In making application for documents librarians should state clearly what is desired, and certify whether the documents asked for are for the purpose of making up deficiencies, or the creation of a document library.

In no case will documents be supplied to a library unless it has a permanent organization and, if not a designated depository, the indorsement of the Representative in Congress from the district in which located.

Documents authorized by law to be distributed to designated depository libraries will be forwarded by registered mail as soon as received from the Government Printing Office. Librarians should keep a record of shipment notices, and notify the Superintendent of Documents promptly of failure to receive any shipment, giving number of the same.

CUMULATIVE INDEX

Beginning with the year 1900, the index of the monthly catalogue will be made cumulative for half-yearly periods. That is, the February number will contain an index to the January and February numbers, the March number will index three numbers, and so on until June.

SALES

The Superintendent of Documents is authorized to sell at cost any public document in his charge the distribution of which is not otherwise provided for. Only one copy is permitted to be sold to the same person, excepting libraries or schools and Members of Congress.

Price-lists of documents available for sale by the Superintendent of Documents will be supplied free on application in person or by mail.

PRICES

Documents entered in this catalogue that are for sale by the Superintendent of Documents are indicated by a (*) preceding the price named. The absence of a (*) indicates that application should be made to the Department, bureau, or division issuing the document.

HOW TO REMIT

Remittances may be made to the Superintendent of Documents, Union Building, Washington, D. C., by postal money order, express order, or New York draft. Postal money orders should be made payable at Station G. *Stamps* and *personal checks* will positively not be accepted. Remittances in coin or bills will be at sender's risk.

Remittances to the Public Printer should be made by postal money order, express money order, or draft on New York. Remittances to the Geological Survey should be made by money order. The Record and Pension Office will receive currency as well as postal money orders if the exact amount be sent.

The Hydrographic Office sells for 50c its "Catalogue of Charts, Plans, Sailing Directions, and other Publications." Other Government offices which have books, pamphlets, maps, or charts for sale issue price-lists, which will be sent free to all applicants. The prices charged are never more than cost and 10 per cent added, and frequently much less than that.

All public documents, from whatever Department or bureau they may be bought or procured, will be forwarded free of postage to all points in the United States, Canada, and Mexico. To other countries regular rates of postage are charged, and remittances must be made to include such postage.

WHERE DOCUMENTS MAY BE OBTAINED

General directions as to where documents may be procured are given in the body of the catalogue.

Smithsonian Institution

NOTE.—In its latest price-list the Smithsonian Institution publishes this note: "The publications of the Smithsonian Institution consist of, 1, Contributions to Knowledge; 2, Miscellaneous Collections; 3, annual reports; 4, special papers. No sets of these are for sale or distribution, and most of the volumes are out of print. The edition of volumes of Contributions and Collections is limited, and is distributed only to designated public libraries and to learned institutions in this country and abroad. A small edition of some of the papers in the above series is printed for sale or exchange. Members of Congress have copies of the reports at their disposal, and they are also for sale by the Superintendent of Documents." The annual report is the only Smithsonian publication that is a public document. All the others are paid for from the private funds of the Institution. Separates from the reports are for exchange, and for free distribution to authors and specialists, but not for sale. The annual report is included in the Congressional set.
